# Study MBBS in Romania

## Study MBBS in Romania 2024-2025

- A graduate who has completed the difficult MBBS course has a promising future.
- He or she can seek full-time employment in a private hospital or apply for a position in a government hospital or can potentially pursue a private practice in Romania or return to India to explore the limitless options and can practice in home country after Clearing FMGE or NEXT Exit exam and one year of Internship.

## **A medical graduate can also pursue postgraduate studies with specialization in areas of interest.**

- A candidate can also pursue a course in Hospital Administration for a steady job in the medical profession.
- In order for Indian students completing MBBS overseas to practice in India, they must pass a screening test administered by the national board. Students who pass the exam can subsequently register with the **NMC** to practice medicine.
- The **NMC** screening test is given twice a year.
- It has been superseded by the NEXT exam.
- The goal of the exam is to assess an individual's own abilities, skills, comprehension, and grasp of important medical procedures.
- Every foreign medical graduate interested in working in the area of medicine in Indian Territory is given several attempts.
